

## Lifting Vessel, Asia

The largest lifting vessel in Asia is protected using an Apollo-based fire detection system. The vessel – a floating crane has the capacity to lift up to 4,000 tonnes in weight.

Shanghai Jin Zhou were awarded the contract and supplied a six loop fire detection system that includes over 400 Discovery Marine devices as well as soon intrinsically safe fire detectors for hazardous areas.

### Summary:

<b>Project Name:</b>	Lifting Vessel
<b>Location:</b>	Asia
<b>Market:</b>	Marine
<b>Products used:</b>	400 Discovery Marine devices and some IS devices
<b>Installer:</b>	Shanghai Jin Zhou
