

Technical Bulletin (TB-2503): ABS Approval Renewal

Reason for notification:

ABS approval on some of our products has lapsed, and there will be a period whereby the following products do not hold this approval. We are contacting you for you to confirm whether this approval is required, so we can manage your orders. If you need this approval, please contact your account manager or a member of our customer service team.

We have already started the process to re-approve these products with ABS. Your sales manager will keep you informed of the progress and an estimated time to completion once we have more information.

Detail:

Products made after 08/04/2025 no longer hold ABS approval. We have temporarily put these items on HOLD to prevent any products being shipped to customers who require ABS approval.

We do have stock of ABS approved devices, which will be prioritised for those customers who require this approval on the products listed in this letter.

Remedy

If you require ABS approval on any of the products in this letter, please contact sales.enquiries@apollo-fire.com so we can deal with your order in a timely manner. If you **DO NOT** need ABS approval, once the hold has been removed from the product, we will ship your order as usual, you do not need to action anything.
